

ATTENTION

The numbers or graduations on the o-ring syringe will wear off easily. This is due to the ink that is required to be used on them by the manufacturer.

We recommend you use a piece of ultra-clear scotch tape over the numbers or use an ultra-clear nail polish over them to prevent them from wearing off quickly. Please first test nail polish on an inconspicuous area to make sure it will not remove the graduations or numbers if using this method.

This affects all syringes we carry online and we cannot replace syringes for this issue.

Thank you for understanding!
